VOLUNTEER FIRE DEPARTMENT REPORT

Fires are often easier to prevent than to put out.

The few fires which you called on for assistance during the past year were fortunately of minor nature and prompt response assured their containment with the least possible property damage.

Continued care on everyone's part should help ensure that our next year's report read: "NO FIRES REPORTED "

Work has been nearly completed on insulating the fire house, and installation of an improved heating system, makes for easier starting of the trucks as well as eliminating the needs for calcium chloride in the tanks.

Respectfully submitted,
C. L. GOVE, Chief
J. F. KUSTER, Sec'y.

PREVENTING FOREST FIRES IS OUR RESPONSIBILITY

Costs of suppressing carelessly set outdoor fires in New Hampshire is 1962 cost the persons responsible $5,545. In the same period, the cost to the cities and towns for control of such fires for which no responsibilty could be placed cost another $24,634. What utter waste of tax money and what shameful and needless loss of timber and esthetic values in the 2,200 acres burned. Residences, farms and other business places were threatened with possible total destruction.

Carelessly set man caused fires can be prevented if every citizen remembers his responsibility in regard to any source of fires in the open. We can help keep our fire loss low by remembering these simple rules.

1. Dispose of burnable waste at the town dump.
2. If waste or brush is to be burned on the premises, obtain a permit from the forest fire warden. Seasonal permits may be issued for approved incinerators and sites.
3. Burn safely by picking a clean site, avoiding dry windy weather and preferably burning late in the day.
4. Have something to keep the fire under control—pails of water, garden hose, sprinkling can, broom for grass fires or shovel will help.
5. Be sure your fire is out before you leave it.
6. If the fire gets out of control or if you see a fire out of control, report promptly to your warden or fire department. Continue to fight it until help arrives.

There is potential danger when matches fall into the hands of children. It is never too early for parents to instill in the child's mind a respect for fire.

Keep our town safe from fire.

In 1962 we had 1 fire.
We burned 1 acre.
Permits issued — 24

District Fire Chief

SUPERINTENDENT'S REPORT

The development of the Mascoma Valley Regional School District during the past year has been watched carefully by interested people all over the state. Folks in Grafton are to be commended for their role in this movemnt and should look forward to improved educatioinal opportunities for their children in the future. No one has ever anticipated that this program would be less expensive than a tuition program and a multi grade elementary school, but we hope that the tax load will not be excessive.

Since the education of the pupils at the East Grafton school was not effective last year, we decided to send them to Canaan in September, thus anticipating the program to be developed by the Regional. The youngsters seem to fit in well and are apparently doing well in their new environment.

Although Grafton goes out of existence as a school district on June 30, 1963 we expect to continue serving the people and pupils of the town as a part of our work with the new Regional.

Respectfully submitted,
Edward H. Currier, Supt.
